

KNOCK DOWN LEAF BOX

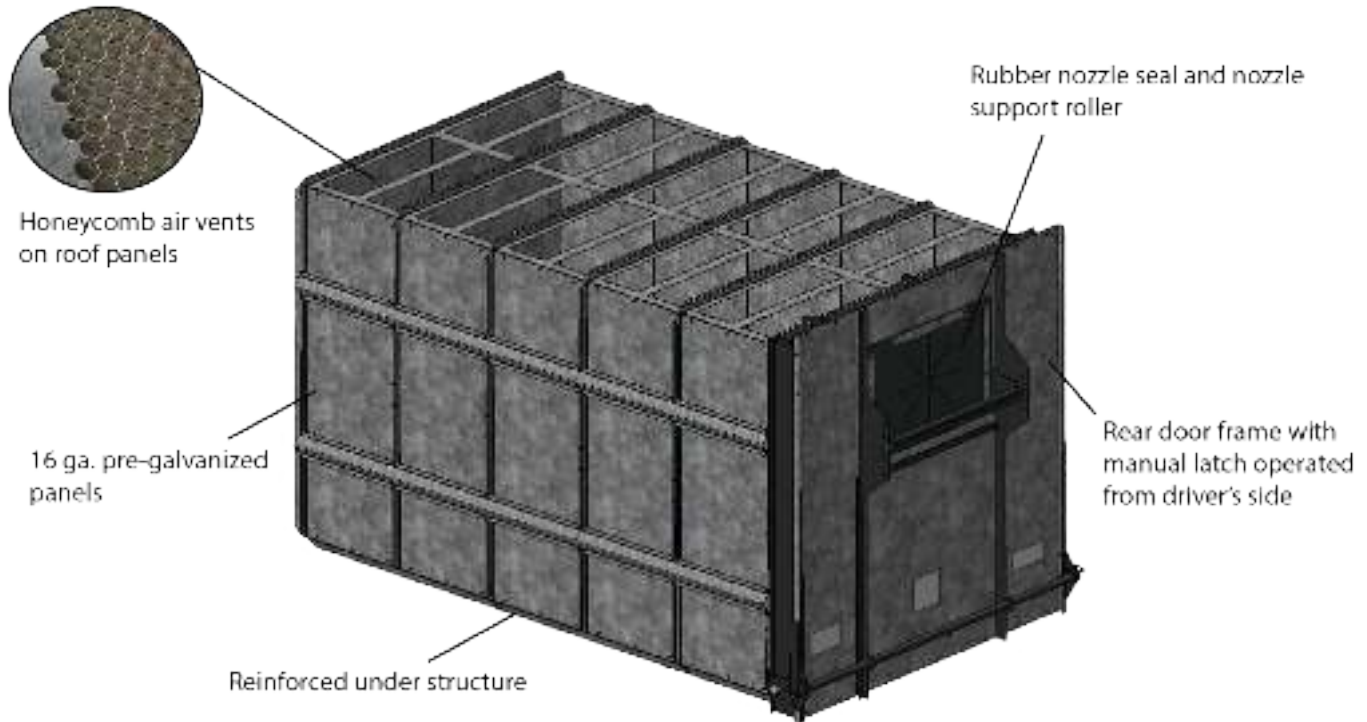

EQUIPMENT FEATURES:

- 10 ft length
- Inside dimensions are 126" long, 72" wide and 75" high
- 14.5 cubic yard capacity
- 16 ga. pre-galvanized panel construction.
- Integral honeycomb air vents on roof panels
- Door hinge: (3) 1" pins with offset hinges
- Shipped LTL to your door in kit form
- Manual door release operated from driver side

The Titan Knock Down Leaf Box has a modular, lightweight design and is easy to assemble. Shipped LTL to your door in kit form, you won't pay expensive flatbed charges. The slip-in design installs in a dump body or flat bed, and adapts to most any leaf collection unit. Built with what you need and nothing more, the KDLB10 is constructed of 16 ga. pre-galvanized panels, with a heavy gauge reinforced under structure and rear door frame which has a

manual latch and is operated from the driver's side, keeping the operator out of harm's way of oncoming traffic. Other features include integral honeycomb air vents on the roof panels; side stiffener members for use as tie downs and lifting; separate door lifting eye and (3) 1" pins with offset hinges for the door hinges; short floor designed for body over hang; rubber nozzle seal and nozzle support roller.

Save shipping costs with the KDLB10 - shipped LTL to your door in kit form so you won't pay expensive flatbed charges. Simply put the box together when it arrives.
