HGACBuy
THE SMART PURCHASING SOLUTION

The ultimate in versatility, the titan leaf cap combines all of the unique features of the Titan Leaf Box and titan chipper cap into a single unit. Custom fit to your existing dump body, use the Titan Leaf Cap as a leaf collection body, or remove the door and install the dump body

tailgate to use as a chip collector. The Titan Leaf Cap is constructed of 10-gauge carbon steel, with 1/2" expanded metal roof vents for leaf collection. The unit is custom fit for each application, utilizing the dump body's side board pockets for positioning and mounting.

*** Note: Some customization may be required by the installer for best fit**
